AFFIDAVIT/DECLARATION TRAVERSING GROUNDS OF REJECTION

I, Istomin Vladimir A., a Moscow R F citizen residing at

(name of declarant)

123-58, Talliskaya 17-4-362, declare:
address

That I graduated from Moscow State University ^{named by Lomonosov} with a degree of Master in

19/20 73

That I received a degree of Doctor of Philosophy (Ph.D) regarding research on Physical Chemistry from

Moscow State University in 19/20 77

That I have been employed by VNIICAZ since 19/20 77 and, ^{now hold} since 19/20 77

~~have held and now hold~~ the position of Chief Scientist, ^{Also I have been employed}
~~by Moscow Physical and technical Institute since 1999 and now hold a position of~~
^{professor}

That I am/am not interested in the above application as an ☒ inventor, ☐ employee

of the assignee, etc.

That I have read and understood the specification of the above application;

That in order to prove that Bruster angle of this application differs from the angle in the cited ref. N5052818

I conducted the following experiment: in accordance with fig. 2 attached to the specification of the present application, The dielectric plate was illuminated with the light source being polarized parallel to the plane of its incidence at the angle α - Bruster angle. An analysis shows that when $\alpha = \arctg(n_2/n_1)$ - the reflected signal at a photoreceiver is practically absent.

From the above result,

When angle α differs from Bruster angle by more than $\pm 9^\circ$ the intensity of light does not allow to register a moment of appearing a condensate.
